

Product Schedule for Price Promise Electra Plan

This is the Product Schedule referred to in Our Standard Terms and Conditions for the supply of Energy to Residential Customers (**Standard Terms**). All capitalised terms used in this schedule have a particular meaning which is specified in the Standard Terms. All clause references in this Product Schedule are references to clauses in the Standard Terms. These terms apply to customers on the Electra Plan in addition to the Standard Terms and may be amended from time to time in accordance with the Standard Terms. If there is a conflict between a term in Our Standard Terms and in this Product Schedule, the term in this Product Schedule will apply. Any capitalised terms set out in this Product Schedule which are not defined in this Product Schedule have the same meaning as set out in the Standard Terms.

Availability

The Electra Plan is only available in a selected number of regions and for a limited time period unless extended by Electra at its sole discretion.

Price Promise

The Electra Energy Price Promise means that We commit to offering You a combination of electricity Energy and Delivery rates that will give You a lower total cost than what You are paying with Your current electricity retailer (excluding Pulse Energy, Grey Power Electricity, Just Energy or any other brand under which Pulse trades) as at the date of Our offer to You for electricity Energy and delivery, after any Prompt Payment Discount (**PPD**) You currently receive (**Price Promise**) and based on the information supplied by You.).

The Price Promise adjustment applies only to variable electricity Energy rates (as specified in your Welcome Letter). The Price Promise adjustment does not apply to Delivery charges (including Network Services, Retailer Services Metering and the Electricity Authority Levy) or any LPG or Natural Gas related charges. Any other credits or fees You may receive or incur from time to time in accordance with the Standard Terms are not subject to the Price Promise adjustment. Where You have provided a recent invoice from Your current retailer, We have calculated an adjustment which is set out in Your Price Plan (labelled Price Promise) to reflect Our Price Promise.

If You could not supply a copy of Your most recent electricity bill from Your current electricity provider (or You do not have a current electricity provider), then You acknowledge that the Price Promise does not apply to any rate You are offered by Us.

If You accept the supply of Energy from Us pursuant to Our Price Promise then this Agreement is conditional on Electra being satisfied in all respects with the rates You are currently paying You electricity provider and any PPD You receive from them, as well as whether or not We are using the correct configuration for Your account. Electra reserves the right to request a copy of Your most recent electricity bill from Your current electricity provider and to contact Your local Lines Company to satisfy itself as to these matters. If You have not received notification from Electra regarding this condition not being fulfilled within five Working Days of the later of signing the Agreement and providing Your most recent electricity bill (if requested by Us) then Electra will be taken to be satisfied with the Adjustment it has offered and Your Agreement shall be deemed to have come into full force and effect on the Commencement Date. If Electra is not satisfied as to these matters, then We will contact you and Your Agreement shall be automatically cancelled and will be of no further force or effect.

The Price Promise plan and adjustment cannot be taken to another network, but can be taken between properties on the same network if the price plan is still available.

Price Promise is not available to Commercial properties and it cannot be switched to a Commercial property even if it is on the same Network.

If you would like to switch between a Low or Standard User Plan, and this option is available to you at the time we, we will if required recalculate the Price Promise adjustment applicable at the average consumer consumption as defined in the Electricity(Low fixed charge tariff option for domestic consumers) Regulations 2004 and adjust the Price Promise adjustment accordingly.

Price Protection

Subject to the termination, switching and moving provisions below, Price Protection applies to Your Energy Rate net of any Price Promise Adjustments for a period of two years from the date you originally switched to this product. Price Protection does not apply to any fees, or charges under Delivery on Your Price Plan (including without limitation, Network Services, Retailer Services and Metering). Beyond the Price Protection period We will give You notice of any change in Your Energy Rate in accordance with Our Standard Terms.
